Publisher catalogue
4,142 validated book records
1978–2026
3,963 eligible for modelling
Internal semantic representation
RQ1 · RQ2
Explicit topics
68 analytical topics;
HDBSCAN noise kept unassigned
Preserved states
initial algorithmic partition,
curated state, document-level diff
Hierarchical context
nine macro-families
from the topic hierarchy
Longitudinal attributes
volume, persistence, continuity,
growth; two-stage renewal rule
focal lines
Indexed scientific activity (RQ3)
OpenAlex topic–country scores
9 lines · 40 topics
10 countries
Screened research fronts (RQ4)
Research Horizon
emerging topics
30 reviewed corpora
1,084 papers
Cross-layer configuration of focal editorial lines
each source is read on its own scale:
thematic structure · indexed activity · screened retention
